

Body Protection Equipment Market is estimated to be US\$ 107.2 Billion by 2030 with a CAGR of 4.3% during the forecast period

[Body Protection Equipment Market](#) accounted for US\$ 70.36 billion 2020 and is estimated to be US\$ 107.2 billion by 2030 and is anticipated to register a CAGR of 4.3%. Body protection equipment refers to the clothing worn by construction workers to keep them safe from harm. It is given to personnel in industries where the operations to be performed are both heavy and critical. Body protection equipment is utilized in a variety of industries, including the chemical, construction, and oil and gas industries. This equipment also shields the body from harsh weather and increases an individual's safety and protection.

The report " **Global Body Protection Equipment Market, By Product Type (Laboratory coats, Coveralls, Full Body Suits, Surgical Gowns, Vests & Jackets and Aprons), By Application (Manufacturing, Construction, Oil & Gas, Transportation, Pharmaceuticals, Chemicals, Foods and Mining) and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Market Trends, Analysis, and Forecast till 2030**

Key Highlights:

- In September 2020, Carestream Health has entered the personal protection equipment (PPE) market with the launch of the CARESTREAM Shield, solving problems of discomfort and difficulty of use commonly associated with personal face shields. Carestream has a proven track record in disciplined development of digital medical imaging systems. The company has applied this expertise in developing its new face shield, which will help frontline healthcare workers protect themselves from risky exposure to fluids.
- In July 2020, RJ Group, manufacturer and exporter of hospitality products, forays into the healthcare space with the launch of its SSMMS & REUSABLE PPE Kit. In this segment, the company is offering a range of safety products like surgical gown, coverall suit, doctor's gown, doctor's apron, ICU coverall for medical professionals. With 30 years of experience in manufacturing and 25 years' experience in the hospitality industry, RJ Group has taken the initiative to boost the supply of PPE products in the Indian market.

Analyst View:

The market growth rate is being fueled by the increasing importance and awareness of both men's and women's safety. The rise in demand for body protective equipment is due to the growth and expansion of the construction industry. Rapid infrastructure development and urbanization, particularly in emerging nations, are driving up demand for body armor. The current coronavirus outbreak has aided the expansion of the market for personal protective

equipment. It is normal practice to compromise on the quality of body protection equipment. In the future, this will harm the image of the body protective equipment market. The rate of market growth will also be slowed by high manufacturing costs. Raw material price fluctuations will also have a detrimental impact on market growth.

Key Market Insights from the report:

The Global Body Protection Equipment Market accounted for US\$ 70.36 billion 2020 and is estimated to be US\$ 107.2 billion by 2030 and is anticipated to register a CAGR of 4.3%. The Global Body Protection Equipment Market is segmented based on the product type, application and region.

- By Product Type, the market is segmented into Laboratory coats, Coveralls, Full Body Suits, Surgical Gowns, Vests & Jackets and Aprons.
- By Application, the Global Body Protection Equipment Market is segmented into Manufacturing, Construction, Oil & Gas, Transportation, Pharmaceuticals, Chemicals, Foods and Mining.
- By Region, the Global Body Protection Equipment Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. North America is expected to dominate the Body Protection Equipment market.

Competitive Landscape:

The key players operating in the global Body Protection Equipment market includes 3M Company, I. du Pont de Nemours and Co., Honeywell International Inc., Kimberly-Clark Corporation, Ansell Limited, Cooper Tire & Rubber Co., Lakeland Industries, Inc., Alpha Pro Tech, Ltd., Cintas Corporation and Radians, Inc.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.
